

Financial Modeling for Commercial Development

Successful ground-up construction projects ranging from \$10M to \$100M+ hinge on precise financial modeling.

K2 Capital can deliver comprehensive financial models specifically tailored to your project, incorporating detailed cash flow projections, market sensitivity analyses, and ROI calculations.

These models serve as critical tools for informed decision-making throughout the development process, ensuring every financial component is carefully planned to optimize profitability, project success, and funding.

Simplifying Real Estate Financing.

K2 Capital leverages decades of experience and relationships with the nation's top lending institutions and private capital partners to craft financing solutions tailored to your project's unique needs.

Our success-fee structure ensures you pay nothing upfront. We only succeed when you do, reflecting our dedication to your goals.

Our Process

If the initial project data meets our criteria, K2 Capital will engage directly with the sponsor(s) to provide consulting services.

Our ultimate goal is to deliver a financial presentation that secures debt or equity financing from our capital partners while fully aligning with your project objectives.

- 1 Initial Consultation**
We begin with a complimentary evaluation and analysis of your project, scope, and financing needs to ensure alignment with approval criteria.
- 2 Project Analysis and Evaluation**
Using our proprietary analysis and modeling framework, we evaluate project feasibility through predictive analytics, assessing risks and potential returns.
- 3 Financial Modeling & Capital Structuring**
We craft tailored financial models and capital structures designed to secure optimal financing terms and maximize your project's success potential.
- 4 Arrange Funding**
With your project aligned, we connect you with premier construction and permanent financing options through our network of affiliated banks and private capital partners, streamlining the funding process.
